SKILLS

Programming	Java, Python, PHP, Laravel, SQL, JavaScript
Web	HTML, CSS, web development, database design
Platforms	SharePoint, Salesforce, CRM systems, WordPress
Operations	Product research, content editing, social media management

EXPERIENCE

Intern Programmer · University of Mindanao — 2024 – 2025

- Built Java applications using lambda expressions and the Streams API.
- Connected applications to relational databases with JDBC and SQL.

Social Media Manager · Shokuy Shoe Company — 2023 – 2024

- Produced multimedia content with the design team to improve brand visibility.
- Monitored platform trends, analytics, and content performance.

Product Research · Freelance / E-commerce — Ongoing

- Source products using Seller AMP SAS, Keepa, reverse search, and product-discovery methods.

SELECTED PROJECTS

- **Xclusive Care Services** — Business website for an in-home care agency (xclusivecareservices.com).
- **PickleHub** — Pickleball club web app with court booking, event matchmaking, and live scoring, built with Laravel and containerized with Docker.
- **LexiCase** — Legal case management system built with Laravel, MySQL, and Blade.
- **ThriftHaven** — Second-hand e-commerce platform built with HTML, CSS, and JavaScript.
- **Automated LinkedIn Content Pipeline** — n8n workflow that researches, writes, quality-checks, and publishes LinkedIn content with human-review fallback, LinkedIn API integration, and audit logging.
